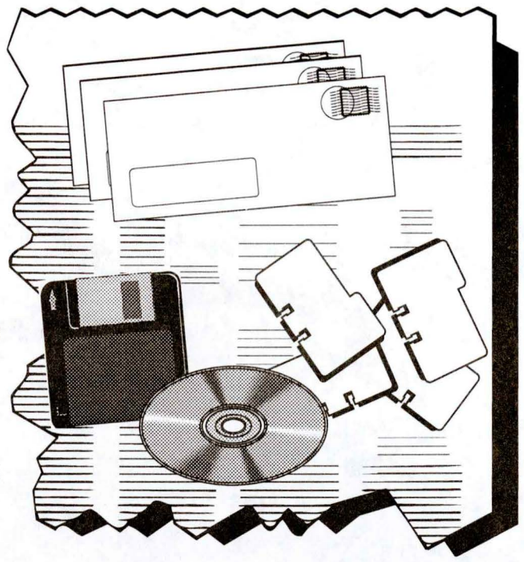
By itself, raw data is not very useful. A street address is no good if you don't know what city it is in. A phone number means little if you don't know who it belongs to. Without integration, the information you have is as useful as a single strand of fiber.

Put the data elements into an integrated package, now you have something to work with. Such is the purpose of *info*TYME. It combines a variety of data elements into relationships that are meaningful to your business.

Using the CD-ROM on your personal computer, you can find residents, businesses, phone numbers, addresses, occupations, homeowners, marital status, and much more. You are in control of the ways to search and use the data. Find neighbors of existing customers...look for households with children...search for all the homeowners on a particular street.....the choices are nearly without limit. With the target marketing version, once your search is complete you can print your own mailing labels or customized lists, or even export names, addresses, and phone numbers to an existing database. There is no separate charge for each use and you have the freedom to specify the contacts using the criteria you determine.

Just as it takes several pieces of tightly wound fiber to make a strong rope, so it takes the successful integration of multiple data elements, search criteria, and usage options to make a powerful business information tool. This tool is *info*TYME.



Find out more about *info*TYME by speaking with your Polk sales representative, or calling **1-800-275-7655.**

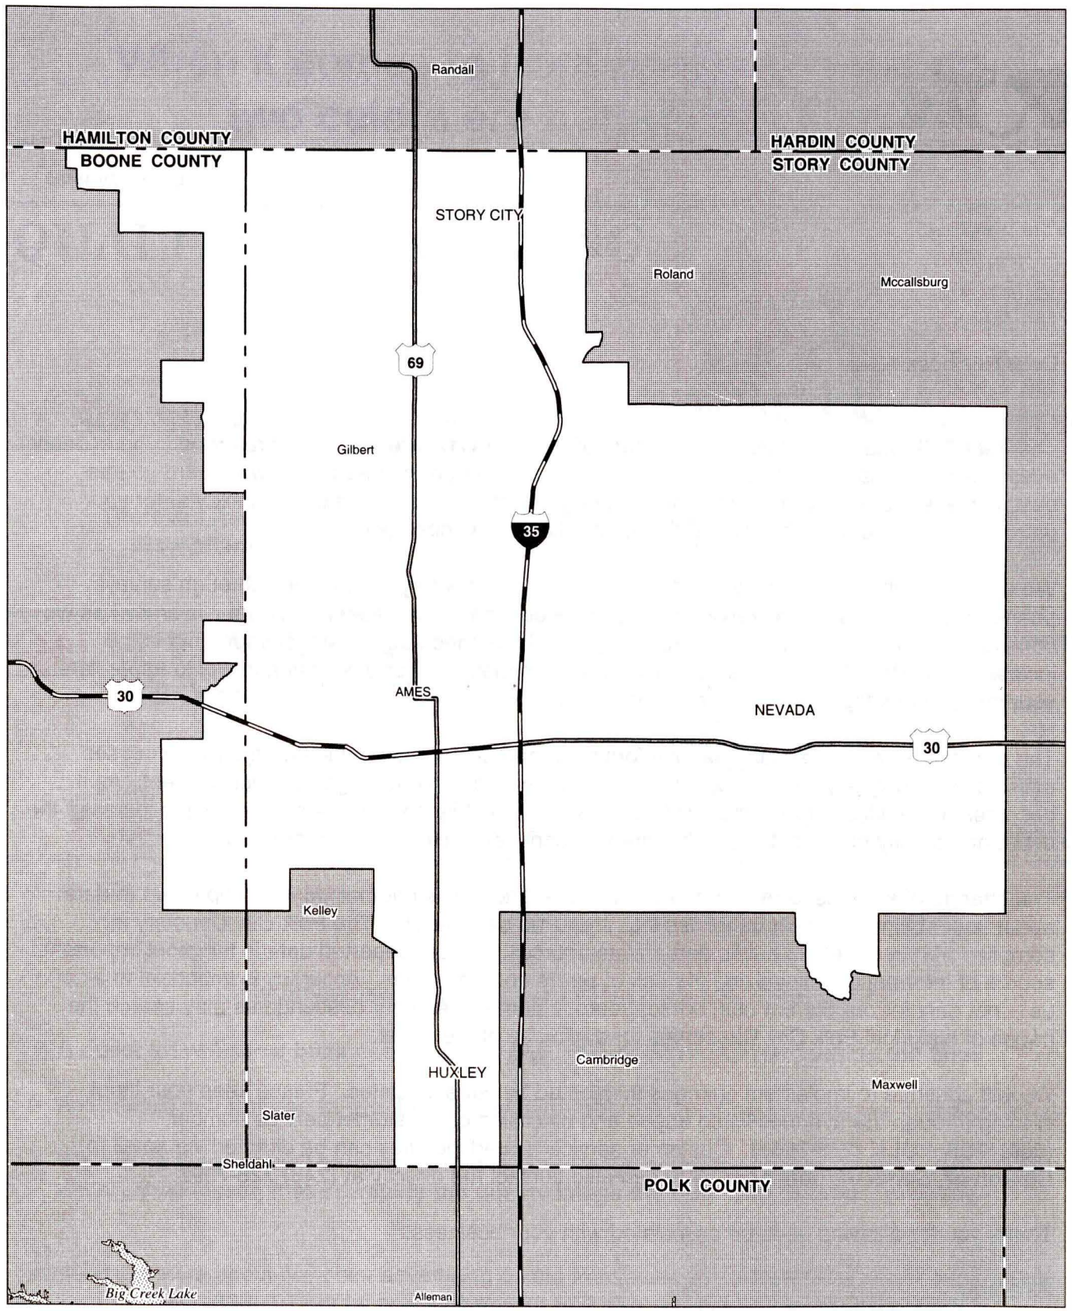
Thank you for your patronage and your contributions to the information in this directory.

We want to continually improve our directories and appreciate your feedback through surveys, phone calls to our customer service representatives, and other means. Your input is crucial as we continue to make improvements. One change we have made as a result of your input is the inclusion of a Map Section. We trust this will be a benefit to your business and would appreciate your suggestions for how we can refine it further.

The directory's section layout, type of information and ease-of-use rank extremely high in user satisfaction, while information accuracy is an area we continue to target for improvement. As it becomes more difficult to keep up with today's highly mobile society, we are working to increase the depth and quality of our data. One hundred percent satisfaction remains our goal.

The change of address form near the back of this directory is another way to keep us up to date about your business, which translates into improved data quality. The Polk City Directory is compiled from a variety of public and private sources, and self-reported data is the most important source of information, minimizing the risk of errors and omissions. Accuracy is important to all of us -- not only for our current use, but for years to come when your descendants may search the pages of historical Polk City Directories for a glimpse of their past.



We will continue to implement changes suggested by our associates. Please keep your input coming through the avenues listed above and by calling our customer service number, **(800) ASK-POLK (275-7655)**. Customer service related inquiries can be directed via email to **Customer_Service@polk.com**. You can also contact me directly at (248) 728-7092.

Thank you for allowing us to be associated with your business.

Sincerely,

Dave Owens

The determination of the need for legal services and the choice of a lawyer are extremely important decisions and should not be based solely upon advertisements or self-proclaimed expertise. This disclosure is required by rule of the Supreme Court of Iowa.

A description or indication of limitation of practice does not mean that any agency or board has certified such lawyer as a specialist or expert in an indicated field of law practice, not does it mean that such lawyer is necessarily any more expert or competent than any other lawyer. All potential clients are urged to make their own independent investigation and evaluation of any lawyer being considered. This notice is required by rule of the Supreme Court of Iowa.
